### CURRENT SITUATION

*(Recent updates are posted at the top of Current Situation)*

City of Riverside Fire Department responded to a report of a residential structure fire in an apartment complex in the 8600 block of Arlington Ave. E5 arrived on scene and attacked the fire. The fire was on the third floor of the multi-family complex. The fire was contained to the kitchen area by the rapid and aggressive attack by crews in the interior of the structure. The fire was discovered by a neighbor who smelled the smoke and kicked down the door to the apartment. He quickly grabbed a fire extinguisher, searched the apartment, and discharged the extinguisher on the fire. Although the extinguisher did not extinguish the fire, it likely slowed down its progress enough to allow firefighters to contain the fire to the kitchen. the cause of the fire was food that was left on the stove.
